**DETAILED ACTION**

1. This action is in response to an amendment filed on February 23, 2007. Claims 1-2 and 4-10 were previously pending. Applicant did not amend any claims.
2. The declaration under 37 CFR 1.132 filed on February 23, 2007 is sufficient to overcome the rejection of claims 1-2 and 4-10 based upon prior art cited in the Office Action of October 24, 2006. The declaration provided by inventors Hidenobu Yaku and Tetsuo Yukimasa under 37 C.F.R. 1.132 provides data to support unexpected results cited by inventors by showing clearly that use of diaphorase and electronic mediator produce synergistic effect. This synergistic effect is not suggested or taught by prior art. Hence the declaration provides data to overcome the art rejections of record. Thus claims 1-2, and 4-10 are allowed.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
